

Turkey Maltepe Fen Lisesi Turkey- promotive materials – activity carried out on the national level. Turkish partners created various materials in order to inform both direct and indirect groups and all participants of the project about the ongoing project activities, main ideas, aims and current project outputs.

Turkish partners in the frame of national activities created promotional material in the form of leaflet. The production of an amazing leaflet was included into school curriculum and students under the guidance of their teachers created material on history, civics, English, graphic design, art classes and extracurricular clubs. The leaflet was produced for purpose to disseminate information about local and national project activities of Turkish participants of the project. Through these activities they have found a perfect way how to join experience and play with learning and they put the main project ideas into operation - they disseminated information about project activities and their cultural heritage along with the development of digital skills of their students, while learning history.

Turkish partners prepared a leaflet about the most important cultural heritage of Turkey. They used all new digital technologies while working on this project task and this fact influenced students' attitude to culture and history. Students and teachers under the leadership of history teacher Mehmet Yürükçü decided to prepare a leaflet about cultural heritage. In the leaflet are depicted and described the cultural properties of Turkey inscribed on the UNESCO World Heritage list ; historic areas of İstanbul, City of Safranbolu, archeological Site of Troy, the Nemrut Mountain, Göbeklitepe, Cappadocia, Ancient city of Ephesus. Are included. This leaflet , publication aims to promote the sites in Turkey inscribed on Unesco World Heritage List and raise awareness in transferring Turkey' s cultural heritages to future generations.

Turkish partners in the frame of national activities created promotional material in the form of a short film. The production of film was part of a school curriculum and students under the guidance of their teachers created materials on history, English, graphic design, art classes and extracurricular clubs. Students collected all needed material during excursion to Edirne. Edirne is an important city and symbol of their culture and history. Students worked with up to date technology while making the film. By producing this dissemination material all participants took the chance to improve their digital competences through preserving and spreading information about their cultural heritage. They visited monuments, mosques, important historical places and monuments. They produced a short film about their excursion. Through this activity was developed students' digital competencies as well as their cultural awareness. This short film is available on YouTube [https://www.youtube.com/watch?v=jgill\\_57lko](https://www.youtube.com/watch?v=jgill_57lko)

Turkey Maltepe Fen Lisesi Turkey- excursion – activity carried out on the national level. Turkish teachers and students took part in the excursion to Edirne on February 2020. Edirne is located in basin fed by the Tunca, Meric, Arda and Ergene Rivers in the east of Europe. It is a city of history, culture and tourism, connecting Asia and Turkey to Europe through the Balkans. The participants of this excursion got acquainted with information that the Selimiye Mosque was built by Sinan the Architect at the age of 80 and was called “My Masterpiece” by Sinan. The lecturer explained that the structure consists of nine base units as follows: the Selimiye Mosque, Dar’ul Kurra Madrasa, Dar’ul Hadis Madrasa, Sıbyan (Primary) School, Arasta, the Clock House (Muvakkithane), the Library, the courtyard with sadirvan and the outer courtyard. Students and teachers visited monuments, mosques, and important historical places and they caught all important moments by the camera. They made a short film later on. Thanks to this activity all participants acquired a wide range of knowledge about history, culture and cultural heritage of their country and got opportunity to enhance the digital skills and competences in processing of the results of this activity. We planned another excursion to İstanbul in May and make short film about İstanbul. But we could not do it because of global corona pandemi.

Turkey Maltepe Fen Lisesi Turkey- workshop – activity carried out on the national level.

Partners in Turkish school took part in the workshop called “Chini ceramics about cultural heritage “

The leader of workshop was Hayriye Elmas the art teacher of the school. 20 students who are good at arts were enrolled to the workshop of Chini

Description of the workshop: “Chini” is an important old traditional handcraft of Ottoman empire in the 16th century. The special type of artistic quartz wall tile produced by totally handmade referred “chini “ distinguished it from standard industrial tiles. The workshop is based on to increase the awareness of extinction of historical traditional handcrafts. The symbols of cultural heritages of Turkey such as Mevlana, Hagia Sofia etc are drawn on ceramic plate and painted by in traditional way chini to emphasise the importance of cultural heritage. This handcraft workshop is directly addressed to our project aim.

4- Conference:

Although we organised a conference on 9 March 2020 about the importance of cultural heritage unfortunately we could not realise because of pandemi.

The speaker of the conference : Prof. Dr Salim Aydın is a famous academician and writes many books about the history of İstanbul
