

Welcome everybody,

The meeting was opened by project manager Dimitris Apostolou from Greece. He presented the programme for the whole week. Then, students started with the first workshop - "Creation of the webpage". Teachers continued with administration and coordinator's presentation by Martina Kovalcikova. She also presented the project work plan, analysed each intellectual output and the role of each partner and explained possible activities on national as well as transnational level. On Tuesday students were working on their webpages and teachers had a lecture – "Teambuilding". On Thursday students presented their webpages and we talked a little bit about the layout of the project webpage. We had 2 excursions – to Meteora, Athens. Dimitris created a group for communication on messenger (Dimitris, Zehra, Lucia and Martina).

The following was discussed and/or decided during the week:

- Dimitris will create some folders on google drive and share everything with partners
- Each partner will add everything on the google drive during the duration of the project
- Greek school will prepare the layout for the webpage and send it to Martina. After that she will programme the project webpage with her students
- Greece will put the questionnaire in Google on-line form and send the link to all participants of the first transnational meeting
- Each partner will start to prepare the dictionary. We talked about vocabulary, chose some words and divided them into categories. Greek school will prepare descriptions of the words in English and send everything to all partners. After that partners will translate everything into their own languages. At the next meeting in Sokolnice we will present prepared vocabulary.
- These dates for the next meeting were arranged:
 - the Czech Republic – 26th April – 2nd May 2020
 - Turkey – 11th October – 17th October 2020
 - Slovakia – 11th April – 17th April 2021
